

The Chronicle.

J. B. NEBLETT, Local Editor.

RATES OF ADVERTISING.—One Dollar per square of ten lines.

CLARKSVILLE, MARCH 15, 1887.

THANKS.—We are under obligations to Yeatman & Wheeler, Cotton and Tobacco Factors, at New Orleans for files of late papers.

TOBACCO MARKET.—We are informed by a warehouse man from below, on the Cumberland, who ships about two thousand hogsheads of tobacco, that he has not this season shipped twenty hogsheads to New Orleans, New York and Louisville, on planters' accounts; that all the planters are shipping their tobacco to Clarksville. Our Kentucky planters are acting wisely—this is without doubt their best market.

DEATH OF BISHOP SCOTT.—This veteran Christian minister, died at Nashville on the 8th inst., at the advanced age of 86 years. His death his people have lost the eldest and ablest of their counselors, and Christians a true and good man. We publish a beautiful and interesting biographical sketch of him on our fourth page.

GEORGE T. LEWIS.—If this gentleman should retire from his position of Receiver of the Memphis, Clarksville and Louisville Railroad, as now seems determined on, he will carry with him the best wishes of this community into whatever vocation he may hereafter go. Whilst the legislature of Tennessee could allow nothing against him but want of experience, our people go further and endorse him both as a thorough gentleman and able manager of the department it is proposed to remove him from.

SONS OF TEMPERANCE.—We learn that the Division of this order, in this city, contemplate having a public demonstration in a short time, with an address by one of the members. This organization has been in existence here but a few months, and has already sufficient membership to make a very respectable show in public. A turnout and address would create an interest in behalf of the cause that would tend greatly to enhance the membership and good of this noble order.

PERSONAL.—In the change about to take place in the office of Receiver of our Railroad, we trust it will cause no removal of the present excellent corps of employees under that officer. We, and we believe our whole community would concur in our regret, would be especially pained at any change in the office of Treasurer and Secretary, and that of Superintendent, because they are both now filled by two of the most capable and worthy gentlemen that could be found for the positions—Geo. B. Faxon and Robert Meek. Their genial courtesy, long proved integrity, and scrupulous fidelity to trusts of their respective departments, have commended them in a far more than ordinary degree to both the traveling community and the stockholders of the road.

JUST SO.—Tobacco is selling freely—trade is reviving—the river is spreading over the "surrounding country"—and Countess Beaumont are receiving their large, beautiful and elegant stock of Spring and Summer goods, to which they invite the attention of the public generally.

PHYSIOLOGICAL.—A question has been laid before us for solution, but feeling incompetent to the task, we hand it over to the Naturalist, or Physiologist. The matter, as stated to us, is in this wise: Whilst the radicals were holding their Convention here, to appoint delegates to the 22d of February Convention, a snow-white cow, belonging to a gentleman in this place, was seen to stand in front of the convention room for a long time, and that night gave birth to a jet black calf. It is surmised by some that the glowing picture, drawn by the eloquent tongues of the members, of the future of the negro, determined the aforesaid cow to adopt for her offspring the fortunate color in the lottery of southern political chances and changes. Others believe that the cow was horror-stricken at the proceedings, and others think it a case of miscegenation.

LARGE SALE OF IRON PROPERTY.—Dr. J. Cobb and D. N. Kennedy, have sold their entire iron estate, LeGrange, Clark and Eclipse Furnaces, with about forty-five thousand acres of land, in Stewart county, Tennessee, to an iron company from Ohio. The price is not made public but is said to be in the neighborhood of one hundred thousand dollars.

THIS IS ONE OF THE LARGEST AND MOST VALUABLE IRON ESTATES IN TENNESSEE. The purchasers are already at work, preparing to put it in full operation. We learn that they are practical western iron men from Ohio and Kentucky, with plenty of means, and that they expect to make up a Capital Stock of over a quarter of a million of dollars. They will doubtless receive a hearty welcome, particularly from the good people of Stewart, who are so much interested in the working and development of this property.

THE RIVER.—In the rise of 1885, and lacks only about four feet of the great flood of 1847. That it will reach this, its greatest recorded height, is not probable as the sudden freets and the clear sky of yesterday, will have the effect of checking the rise. From our Nashville exchanges, we learn that a ten foot rise was reported at Somerset, Kentucky, on the upper Cumberland. The difficulty of crossing its vast expanse opposite our city, and its back waters over the road beyond the Red River bridge, materially interfere with the trade of this place. This flood of waters seems to be general all over the West and South, and has swollen their streams than the Cumberland, beyond their highest water marks. To the South it will prove especially disastrous, and fearfully aggravate the already threatening suffering prevailing there. Whilst we write it has been snowed and we drop our pen to make preparations for building an Ark: besides our family we shall take aboard all our patients who are not in arrears, but no delinquents.

ST. PATRICK'S DAY.—This day occurs next Sunday the 17th inst.

AN UNUSUAL PHENOMENON.—On Tuesday morning last, there was observed upon our ponds, a most singular substance that attracted the attention of all the passers-by. It was floating upon the surface and had collected into quite a thick strata upon the edges of the ponds, whilst the wind had blown it. It had precisely the appearance of flour of sulphur but none of the small, taste or other properties of brimstone. Further investigation showed the presence of this strange substance in all the cisterns and water reservoir over the town, even in the little puddles made by horse hoofs. From persons from Stewart county we learn that the same phenomenon was seen in that locality. We presume, therefore, its appearance was general over a large section of country.

As there was a heavy rain the night preceding, this fact would indicate that this substance came down from the clouds. Upon this theory it has been supposed to be the pollen, or fecundating dust, of vegetables. If so it must have been borne from a far distant and more tropical region, and may have come also from some one plant, shrub or tree or other vegetation in bloom, because it is all precisely alike, and exhibits under the most powerful microscope none of the many differences of atomic shape characteristic of the pollen of different plants. This much has been certainly determined—that it is vegetable matter and not mineral. We hope the Savans of the country will yet find its precise nature and origin.

POISON.—Amongst the amusing incidents arising from the sulphurous looking shower of last Monday night, was the suspicion of a certain family in town about their children being poisoned. Upon seeing the presence of this unusual substance in the water drawn from their cisterns that morning, the family at once suspected a domestic in the household of foul play, and applied to one of the city officers to have the party arrested.

In Stewart county, we understand, that for a while every man's hand was against each other, until it was found to be a natural phenomenon.

A FACT.—Dry goods sell as cheap, if not cheaper, at retail, in this city, as in Louisville or Cincinnati, and why? Well, we have not space this week to argue the question, but just refer the people to Messrs. Coulter & Hillman, dry goods dealers in this city, for a tip-top place to buy cheap goods, and new goods at that.

MARIE & CO. have received their large and elegant stock of Spring and Summer clothing, which was selected by Mr. W. M. Pollock, who has displayed much taste in his selections. See their posters and advertisement, and then call and examine the stock. Mr. Geo. Rice, the clerk, will show you through, and give you as good a fit as any other man.

FARMER, ROGERS & CO.—We call special attention to the advertisement, to-day, of the above firm. They have just received a large lot of Boots, Shoes, Clothing, etc., which they will sell on Saturday and Monday. Retail dealers will do well to examine their stock. They will also sell any of the above goods at private sale.

The following resolution, relative to the Clarksville Female Academy, was passed by the Clarksville District meeting of the M. E. Church, South, held at this place last week. The President, Rev. J. B. West, is a gentleman of intellect and learning, strictly a good and pious Christian, and well deserving this mark of confidence and esteem of the ministers, also of all good men who would build up Southern institutions. If his friends will only do their duty such a man will never fail.

Resolved, That, whereas, the Clarksville Female Academy is situated in the bounds of our District, and having full confidence in the moral and intellectual worth of its President and his efficient corps of teachers, that we will give our special influence to the promotion of the interests of that institution.

The Bishop appointed Rev. S. D. Osburn, Western Mo. and Green P. Jackson, a visiting committee to the Clarksville Female Academy.—*Robertson Register.*

NEWS ITEMS.

The Brazilian Government has offered to emancipate 20,000 slaves on condition that they will enlist in the army.

John Esten Cooke, Esq., the popular Virginia author, has a new work in press entitled "Wearing of the Grey," said to surpass any of his former efforts.

The Democrats have elected their Mayor, and ten out of fifteen Aldermen, in Rochester, New York. The vote exhibits a Democratic gain of 1,390.

Preliminary steps have been taken in the Louisiana Legislature for the impeachment of Governor Wells, it being charged that he is a defaulter to the amount of \$88,000.

It is supposed that the reason why Congress raised the duty on wool and refused to raise it on anything else, was because the Jacobins thought there was a negro under the wool.

A religious revival, described as the most extensive ever witnessed in Nashville, has been in progress there for the past six weeks. In that time one hundred and thirty persons have joined the First Presbyterian church, Dr. Huntington and scores to the other churches of that city.

A large number of laborers have been employed on the levee in Arkansas, near Napoleon, Mo. The work is the cost of the Government, and will be of immense benefit to the people of the State, as it secures from overflow a vast extent of the richest bottom lands, and will extend from Red River to Pine Bluff.

Applications for passage to Liberia have been received by the American Colonization Society from six Americans and forty-two colored people in South Carolina and other companies are known to be forming, who will sell the list to upward of one thousand two hundred.

The Tennesseeans in Congress gave the following vote on the Reconstruction bill: In the Senate, Fowler voted for the bill and Patterson against it. In the House, Messrs. Arnold, Stokes and Maynard voted for, and Campbell, Cooper, Hawkins, Leitwick and Taylor against it.

The Lexington (Ky.) Statesman says the negroes are leaving Kentucky, and especially those who are able to do the work we much need to be done. In the past three months not less than three hundred able-bodied young field hands have left Lexington alone, and it is said that this is but the beginning of the migration.

Tobacco Market.

There were sold at our five Warehouses, last week, two hundred and seventy hogsheads of tobacco.

The market opened, on Tuesday, weak and declining, with sales, in Clarksville, of 74 hds. Prices rallied after Wednesday, and the market became strong toward the close, establishing an advance on Friday of full 10¢ per lb. all grades.

This speaks well for the strength of our market, as the week has been dull and declining in New York, and gold has fallen off 8 per cent. in the past ten days.

Our market opened this week with lively and spirited competition with sales on Tuesday, of 115 hds., the advance of Friday was fully maintained; and on some descriptions, even 10¢ more was added to last week's prices. Shipments from Louisville this week paid the owners very handsome profits.

Yellow wrappers continue to command fair prices. Messrs. Smith & Turnley sold, last week a hhd. raised by Mr. Peter Anderson, of this County, at \$24.25; and on Wednesday, Messrs. Poindester & Co. sold some leaf made by Mr. C. H. Walden, of Christian county Kentucky, at \$30.00 per 100 pounds.

TOBACCO EXCHANGE.

Huttlings & Grinter sold at the Tobacco Exchange, in this city, on Friday 8th inst., 52 hds. at the following prices:

CONOVER, BROS & CO.

Franklin Street, (Sign of Gold Pen.)

CLARKSVILLE, - - TENN.

DEALERS IN

Books, Stationery, Music, Wall Paper, Window Shades, etc., And Agents for the celebrated

WEBER & EMERSON PIANOS,

—AND—

ESTES & CO'S TREMOLO ORGANS.

A PERSONAL EXAMINATION WILL certainly convince one of the superior merits of these Instruments. Eighteen of the **Webber & Emerson** Pianos have been selected, in preference to all others, by the New York Conservatory of Music, which proves conclusively that they are the **Best, Most Reliable—The Piano Forte of the Present Day.**

(THE EMERSON PIANOS.)

possess all the good qualities of a First Class Piano, and are special favorites of the ladies.

The Estey Organs contain the following great and important improvements, which are **Patented**, and consequently found in no others, making them very desirable for the **Parlor, Boudoir and Church.** The

Patent Harmonic Attachment doubles the volume of tone, and in connection with the

Sub Bass and Knee Swell, become the most powerful and rich toned instruments extant. But the crowning achievement is found in the

PATENT VOX HUMANA TREMOLO, which entirely changes the reed-tone, giving the sympathetic sweetness of the human voice, making them so melodious and pure that they never fail to enchant the listener.

This Tremolo unlike all others, is managed by the foot, with a Third and Separate Pedal.

From the many testimonials are found the following names:

George W. Morgan, Organist of Grace Church, New York; Wm. A. King, Organist of the church of Transfiguration; John Zundel, Organist of Plymouth church, Brooklyn.

We offer all the above Instruments at **MANUFACTURERS PRICES,** Warranted for Five Years, and kept in tune for one year, and will take in exchange old Pianos.

Special attention given to Tuning and Repairing. All are cordially invited to examine these instruments, and Messrs. Conover will take great pleasure in showing them. Call or send for Illustrated Catalogues with price lists.

Remember the place—Sign of the Gold Pen.

Feb. 8, 1887-1f.

LURTON, BROS. & CO., WHOLESALE AND RETAIL DEALERS IN

DRUGS, MEDICINES, Paints, Oils, Varnishes, Window Glass, Fancy Goods, Perfumery, Soaps, Brushes of all kinds, Dye Stuffs, Domestic Liquid Dyes, Pure Wines, Bourbon Whiskey, French Brandy, And all articles necessary or useful in the Sick Room.

We are receiving fresh supplies, every week, and prepared to furnish any quantities the market may demand.

AT VERY LOW PRICES.

We call the attention of Contractors, Builders and Painters, to our large stock of **WHITE LEAD,** and Window Glass, and all articles in the way of Painters' material, which we are selling at a small advance on manufacturers' prices. Orders from physicians promptly filled, at the sign of the "Big Gold Pen," Franklin st., CLARKSVILLE, August 10, 1886-1f.

SALE OF VALUABLE REAL ESTATE.

IN obedience to an order of the county of Stewart County, made at its January term, 1887, in the case of Elizabeth Kirkman, Ex. vs. Thomas Kirkman, Jr., et al., I will proceed to sell as commissioner, on the 18th day of March, 1887, at the door of the Court house in the town of Dover, all the lands in the pleadings mentioned, comprising what was once known as Peyton's Furnace, and lands in said county. These lands will be sold to the highest bidder, on credit of twelve months, the purchaser to pay cash sufficient to defray the expenses and costs of sale, including attorney's fees, and executing his note with two more good securities for the balance, which notes are to be a lien on the land until the purchase money is paid.

Any one wishing to embark in the Iron Business, or erect any kind of manufacturing machinery, the above lands offer unparalleled investment, as the lands embrace an area of about 16,000 acres, covered with fine timber, in part, and containing rich and abundant deposits of iron ore.
